2		<p>PREDICT enables global surveillance of pathogens that can spillover from animal hosts to people by building capacities to detect and discover viruses of pandemic potential. The project is part of USAID's Emerging Pandemic Threats program and is led by the UC Davis One Health Institute, with the core partners being USAID, EcoHealth Alliance, Metabiota, Wildlife Conservation Society, and Smithsonian Institution.</p> <p>This data was collected over 5 years during PREDICT 2 and consists of multiple datasets describing the sites where the animal samples were collected, the animals sampled and the test results of the specimens collected on these animals.</p>	
3		Describes the location, site characteristics and observations made during a visit to a site during the specified time.	
4	system generated	The numeric key to the event. This can be used to link other datasets to the event.	
5	lookup value, single select	The name of the country where the samples were collected.	
6	lookup value, single select	The site grouping definition where concurrent sampling took place between animals, domestic animals and people.	
7	lookup value, single select	The state or province within the country where the site is located.	
8	decimal (9,2)	The GPS location of the centroid of the site where the sample were collected in decimal degrees. Is rounded to 2 decimal places to ensure location security.	
9	decimal (9,2)	The GPS location of the centroid of the site where the sample were collected in decimal degrees. Is rounded to 2 decimal places to ensure location security.	
10	date	The start date of when sampling began.	
11	system generated	The type of individuals that were sampled during the event.	
12	system generated	Estimated country specific season.

13	lookup value, single select	The human density and the impact at the site at the time of sampling.	
14	lookup value, multi select	Summarizes the context of potential human-animal contact (e.g., the epidemiological situation) where sampling occurred.	
15	yes/no	Are the animals at the site cared for by a veterinarian?	
16	lookup value, single select	The estimated size of the area for this event in m2, to the best of the field team's knowledge.	
17	yes/no	Are humans present (live or dead) within 0.5 km in any direction, to the best of the field teams knowledge. Answer include animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork.	
18	yes/no	Are rodents present (live or dead) within 0.5 km in any direction, to the best of the field teams knowledge. Answer includes animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork.	
19	yes/no	Are bats present (live or dead) within 0.5 km in any direction, to the best of the field team's knowledge. Answer includes animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork.	
20	yes/no	Are non-human primates present (live or dead) within 0.5 km in any direction, to the best of the field team's knowledge. Answer includes animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork.	
21	yes/no	Are wild birds present (live or dead) within 0.5 km in any direction, to the best of the field team's knowledge. Answer includes animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork.	
22	yes/no	Are carnivores present (live or dead) within 0.5 km in any direction, to the best of the field team's knowledge. Answer includes animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork.	
23	yes/no	Are ungulates present (live or dead) within 0.5 km in any direction, to the best of the field team's knowledge. Answer includes animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork.	

	G	H
13	urban (densely living population, little or no green space visible, eg, parks, cultivation or raising animals); peri-urban (may still be dense population but more green space/scrub visible between dwellings, could be used for cultivation or raising animals or fallow); rural (could be abutting pristine, majority of land does not have dwellings, could be used for agricultural-crops or animals; may be fallow; may be extractive industry); low disturbance (no human dwellings, very few signs of human activity, includes "pristine" habitat)	
14	animal production; crop production; dwellings; industry; value chain; natural areas; sanctuaries; human hospital; outbreak investigation

24	yes/no	Are pangolins present (live or dead) within 0.5 km in any direction, to the best of the field team's knowledge. Answer includes animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork. This option was added later in the project so could be blank for events added later.	
25	yes/no	Are poultry/other fowl present (live or dead) within 0.5 km in any direction, to the best of the field team's knowledge. Answer includes animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork.	
26	yes/no	Are goats/sheep present (live or dead) within 0.5 km in any direction, to the best of the field team's knowledge. Answer includes animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork.	
27	yes/no	Are camels present (live or dead) within 0.5 km in any direction, to the best of the field team's knowledge. Answer includes animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork.	
28	yes/no	Are swine present (live or dead) within 0.5 km in any direction, to the best of the field team's knowledge. Answer includes animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork.	
29	yes/no	Are horses present (live or dead) within 0.5 km in any direction, to the best of the field team's knowledge. Answer includes animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork. This field was added later in the project so could be blank for events added later.	
30	yes/no	Are cattle/buffalo present (live or dead) within 0.5 km in any direction, to the best of the field team's knowledge. Counts include animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork.	
31	yes/no	Are dogs present (live or dead) within 0.5 km in any direction, to the best of the field team's knowledge. Answer includes animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork.	
32	yes/no	Are cats present (live or dead) within 0.5 km in any direction, to the best of the field team's knowledge. Answer includes animals/people directly seen as well as not seen but known to be there at the time of sampling based on information gathered while conducting fieldwork.

During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, where did (other community) people (besides you) go for health care? The number of people who responded "nowhere".
1018	yes/no	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, were there times that you or people around you ate animals? The number represents the number of people who responded "yes"	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, were there times that you or people around you ate animals? The number of people who responded "yes"
1019	yes/no	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, were there times that you or people around you ate animals? The number represents the number of people who responded "yes"	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, were there times that you or people around you ate animals? The number of people who responded "yes"
1020	yes/no	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, were there times that you or people around you ate animals? The number represents the number of people who did not respond to the question.	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, were there times that you or people around you ate animals? The number of people who did not respond to the question.
1021		Questions about the animal contact during the Ebola outbreak, between 1 June 2013 through 31 March 2016.	
1022	system generated	The numeric key to the group of humans interviewed. This can be used to link other datasets to this group. The data in this dataset is aggregated by country, district, gender and year of interview to protect the identity of the persons interviewed	
1023	text	The country where the interviews took place.	
1024	text	The district where the interviews took place.	
1025	lookup value, single select	Interviewer observed gender of the group.	Interviewer observed gender of participants.
1026	date	The year the interviews took place.	
1027	integer	The number of interviews in the group of interviews.	The number of people interviewed within the aggregated data group.
1028	yes/no	Did anyone you live with have an animal as a pet? The number represents the number of people who responded "yes" to the question.	Did anyone you live with have an animal as a pet? The number of people who responded "yes" to the question.
1029	yes/no	Did anyone you live with have an animal as a pet? The number represents the number of people who responded "no" to the question.	Did anyone you live with have an animal as a pet? The number of people who responded "no" to the question.
1030	yes/no	Did you handle live animals? The number represents the number of people who responded "yes".	Did you handle live animals? The number of people who responded "yes".
1031	yes/no	Did you handle live animals? The number represents the number of people who responded "no".	Did you handle live animals? The number of people who responded "no".
1032	yes/no	Did you raise live animals? The number represents the number of people who responded "yes".	Did you raise live animals? The number of people who responded "yes".
1033	yes/no	Did you raise live animals? The number represents the number of people who responded "no".	Did you raise live animals? The number of people who responded "no".
1034	yes/no	Did you share a water source with animals for washing? The number represents the number of people who responded "yes".	Did you share a water source with animals for washing? The number of people who responded "yes".

1080		If the person responded "yes" to any of the animal contact questions, which taxa? The number represents the number of people who responded "cats". ** Interviewers reported that respondents were uncomfortable answering this question, thus answers may not be reliable.	If the person responded "yes" to any of the animal contact questions, which taxa? The number of people who responded "cats". ** Interviewers reported that respondents were uncomfortable answering this question, thus answers may not be reliable.
1081	yes/no	Before the Ebola outbreak, that is before 1 June 2013, were you worried about disease or disease outbreaks in live animals in the local market/Area? The number represents the number of people who responded "yes".	Before the Ebola outbreak, that is before 1 June 2013, were you worried about disease or disease outbreaks in live animals in the local market/Area? The number of people who responded "yes".
1082	yes/no	Before the Ebola outbreak, that is before 1 June 2013, were you worried about disease or disease outbreaks in live animals in the local market/Area? The number represents the number of people who responded "no".	Before the Ebola outbreak, that is before 1 June 2013, were you worried about disease or disease outbreaks in live animals in the local market/Area? The number of people who responded "no".
1083	yes/no	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, were you worried about diseases or disease outbreaks in live animals in the local market/Area? The number represents the number of people who responded "yes".	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, were you worried about diseases or disease outbreaks in live animals in the local market/Area? The number of people who responded "yes".
1084	yes/no	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, were you worried about diseases or disease outbreaks in live animals in the local market/Area? The number represents the number of people who responded "no".	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, were you worried about diseases or disease outbreaks in live animals in the local market/Area? The number of people who responded "no".
1085	yes/no	Since the Ebola outbreak, that is after 31 March 2016, have you been worried about diseases or disease outbreaks in live animals in the local market/area? The number represents the number of people who responded "yes".	Since the Ebola outbreak, that is after 31 March 2016, have you been worried about diseases or disease outbreaks in live animals in the local market/area? The number of people who responded "yes".
1086	yes/no	Since the Ebola outbreak, that is after 31 March 2016, have you been worried about diseases or disease outbreaks in live animals in the local market/area? The number represents the number of people who responded "no".	Since the Ebola outbreak, that is after 31 March 2016, have you been worried about diseases or disease outbreaks in live animals in the local market/area? The number of people who responded "no".
1087	lookup value, multi select	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, what were the activities you did to earn your livelihood? The number of people who responded "both multiple and individual species in enclosures".
1179	lookup value, multi select	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, how were live animals stored at night? The number represents the number of people who responded "N/A".	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, how were live animals stored at night? The number of people who responded "N/A".
1180	yes/no	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, was there a quarantine period for new animals? The number represents the number of people who responded "yes".	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, was there a quarantine period for new animals? The number of people who responded "yes".
1181	yes/no	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, was there a quarantine period for new animals? The number represents the number of people who responded "no".	During the Ebola outbreak, that is from 1 June 2013 through 31 March 2016, was there a quarantine period for new animals? The number of people who responded "no".
1182	yes/no	During the Ebola outbreak, that is from 1 June 2013 through 31 March 31 2016, was it possible to buy bushmeat/wild animal meat on or near the site? The number represents the number of people who responded "yes".	During the Ebola outbreak, that is from 1 June 2013 through 31 March 31 2016, was it possible to buy bushmeat/wild animal meat on or near the site? The number of people who responded "yes".
1183	yes/no	During the Ebola outbreak, that is from 1 June 2013 through 31 March 31 2016, was it possible to buy bushmeat/wild animal meat on or near the site? The number represents the number of people who responded "no".	During the Ebola outbreak, that is from 1 June 2013 through 31 March 31 2016, was it possible to buy bushmeat/wild animal meat on or near the site? The number of people who responded "no".
1184	yes/no	During the Ebola outbreak, that is from 1 June 2013 through 31 March 31 2016, did you have special protective equipment (eg. shoes, masks, gloves) only worn at work? The number represents the number of people who responded "yes".	During the Ebola outbreak, that is from 1 June 2013 through 31 March 31 2016, did you have special protective equipment (eg. shoes, masks, gloves) only worn at work? The number of people who responded "yes".
1185	yes/no	During the Ebola outbreak, that is from 1 June 2013 through 31 March 31 2016, did you have special protective equipment (eg. shoes, masks, gloves) only worn at work? The number represents the number of people who responded "no".	During the Ebola outbreak, that is from 1 June 2013 through 31 March 31 2016, did you have special protective equipment (eg. shoes, masks, gloves) only worn at work? The number of people who responded "no".
1186	lookup value, multi select	If yes to previous question, which protective equipment? The number represents the number of people who responded "shoes/boots".	If yes to PPEUsedDuring question, which protective equipment? The number of people who responded "shoes/boots".

1292	lookup value, multi select	If yes to previous question, which protective equipment? The number represents the number of people who responded "gloves".	If yes to PPEUsed question, which protective equipment? The number of people who responded "gloves".
1293	lookup value, multi select	If yes to previous question, which protective equipment? The number represents the number of people who responded "gown/apron".	If yes to PPEUsed question, which protective equipment? The number of people who responded "gown/apron".
1294	lookup value, multi select	If yes to previous question, when do you use protective equipment? The number represents the number of people who responded "handling animals".	If yes to PPEUsed question, when do you use protective equipment? The number of people who responded "handling animals".
1295	lookup value, multi select	If yes to previous question, when do you use protective equipment?? The number represents the number of people who responded "slaughter".	If yes to PPEUsed question, when do you use protective equipment? The number of people who responded "slaughter".
1296	lookup value, multi select	If yes to previous question, when do you use protective equipment? The number represents the number of people who responded "butcher".	If yes to PPEUsed question, when do you use protective equipment? The number of people who responded "butcher".
1297	lookup value, multi select	If yes to previous question, when do you use protective equipment?? The number represents the number of people who responded "always on at work".	If yes to PPEUsed question, when do you use protective equipment? The number of people who responded "always on at work".
1298	lookup value, multi select	If yes to previous question, when do you use protective equipment? The number represents the number of people who responded "other".	If yes to PPEUsed question, when do you use protective equipment? The number of people who responded "other".
1299		Describes the test conducted and its results. Multiple tests can be conducted for each individual sampled.	
1300	system assigned	The numeric key to the test.	
1301	system assigned	The numeric key to the individual tested. This can be used to link this dataset to the AnimalsSampled dataset.	
1302	system assigned	The name of the country where the sampling occurred. Is auto assigned by system by linking to the event ID.	
1303	decimal (9,2)	The GPS location of the centroid of the site where the sample were collected in decimal degrees.	
1304	decimal (9,2)	The GPS location of the centroid of the site where the sample were collected in decimal degrees.	
1305	text	The taxonomic description of animal sampled.	
1306	text	The text ID of the specimen used for the test.	
1307	text	The type of specimen collected.	
1308	lookup value, single select	The type of PCR test performed.	
1309	lookup value, single select	The viral family that the PCR was performed for.	
1310	lookup value, single select	The result of the PCR test.	
1311	lookup value, single select	The type of test performed to confirm results.	
1312	lookup value, single select	The confirmation test result.	
1313	text	The accession number to reference this sequence in Genbank. Will be blank for negative results.	
1314	assigned by Viral Discovery team	The name of the virus detected in the sample. Will be blank for negative results.	
1315	assigned by Viral Discovery team	The taxonomic family the virus belongs to. Will be blank for negative results.	
1316	assigned by Viral Discovery team	Describes the zoonotic potential and threat of the detected virus to human health. Will be blank for negative results.
